OBJECTIVE

Seeking a UX/UI **design** and front-end **development** opportunity where I can deliver engaging user experiences with my sense of aesthetic, strong problem-solving skills as well as solid understanding of web technologies.

EXPERTISE

Front-End Development

- Strong foundation in HTML, CSS, and ES5/6
- Proven experience in leading Angular projects, building reusable components, and maintaining UI libraries with Sass & customized Bootstrap
- Proficiency with responsive web design and techniques
- Familiarity with consuming web APIs
- Create interactive and playful storytelling using D3.js

UX/UI Design

- A keen eye for typography, layout, color, consistency, and subtle details
- Extensive experience in crafting UI components, creating hi-fi design, and delivering prototypes using Sketch / InVision
- Analytical thinking for solving complex design problems
- Experience with user-centered design and UX research methodology
- Creativity and great aesthetics

WORK EXPERIENCE

Front End Developer, UX Designer

SLAVIC401K, BOCA RATON, FL

09/2017 - Current

- Lead AngularJS (component-based) and Angular 2+ projects on both design and front-end development
- Create redesigns and revamp the codebase for existing AngularJS apps with best practices
- Establish design aesthetics for web apps; craft and maintain reusable UI components in Sketch
- Design email templates and develop using pug (jade)

Graduate Assistant

UNIVERSITY OF MIAMI, CORAL GABLES, FL

01/2017 - 05/2017

- Designed intuitive interactions for Oculus VR projects and developed with C# and Unity

Digital Media Specialist

VWEED MEDIA, SHENZHEN, CHINA

09/2014 - 03/2015

- Built marketing websites using HTML, CSS, JavaScript, and Bootstrap
- Collaborated with designers to create motion graphics using After Effects
